

BUILDING ON OUR LEGACY.

100 YEARS PAST. **100 YEARS FORWARD.**

**ur Brothers of
Sigma Nu's Epsilon
Epsilon Chapter
are men of honor
and a loyal brotherhood;
stewards of their community
and builders of tomorrow.**

Historically, we are men who set ambitious goals with respect to house, Greek and campus leadership and understand the value and balance of scholarship, relationships and philanthropy. All members of Epsilon Epsilon truly know that Excellence is Expected!

To this day, the Epsilon Epsilon chapter continues our time-honored legacy of producing extraordinary men who make up the Brotherhood of Sigma Nu. Undergraduate brothers and alumni have worked together and made sacrifices to preserve our chapter's legacy and invest in its future. And today, that Brotherhood boldly moves forward with a far-reaching vision ensure a future built upon the success of those who came before us.

We are fast approaching a significant moment in our chapter's history in 2020 - our 100th anniversary! This milestone creates pause to reflect on the foundation of excellence built at the hands of our Brothers and the responsibility to perpetuate this level of excellence for the next 100 years. But this begs a simple question: what is required of us to achieve this?

Chapter leadership believes the Epsilon Epsilon Family supports the perpetuation of our legacy and ideals. To achieve this, a re-invented physical structure will provide the foundation to maintain our expected level of excellence upon our iconic site at 913 West University Avenue.

The next generation of our fraternity House will serve as a visual representation of our ideals, by providing increased space, improved amenities, growth and offerings essential to ensuring our collegiate Brothers are housed in a space that not only meets their needs, but fosters self-

“ This milestone creates pause to reflect on the foundation of excellence built at the hands of our Brothers and the responsibility to perpetuate this level of excellence for the next 100 years. ”

OUR VISION FOR 915 WEST UNIVERSITY AVENUE

improvement in an enhanced living and learning environment. For each year we remain in the current facility, we lose competitive ground in recruiting young men who excel in academics, leadership, athletics and campus activities at Oklahoma State University - where these Sigma Nu qualities have reigned supreme for nearly our entire tenure on campus.

The Epsilon Epsilon Chapter is not your typical fraternity. We are unique. We have been called the top house in our national footprint and at Oklahoma State University. Becoming a Sigma Nu at Oklahoma State is more than a four-year college experience...it is a lifelong commitment. It is also a platform which helps shape future leaders in every American industry. OSU Sigma Nus rally to support their lifelong Brothers and enjoy outcomes manifested in successful entrepreneurs, CEOs, top educators, influencers and business builders. The Epsilon Epsilon Chapter has provided a rich environment for investing in its descendants of men, and now is the time to give back and invest in those men who have yet to enter our walls. And to extend our walls we must first move them and build them.

This is a moment nearly a century in the making. It is a moment for ALL of us to seize history and play a role in honoring the future. The time is NOW! By choosing to Unite as Brothers, we choose to make an investment for life. JOIN US!

SITE PLAN

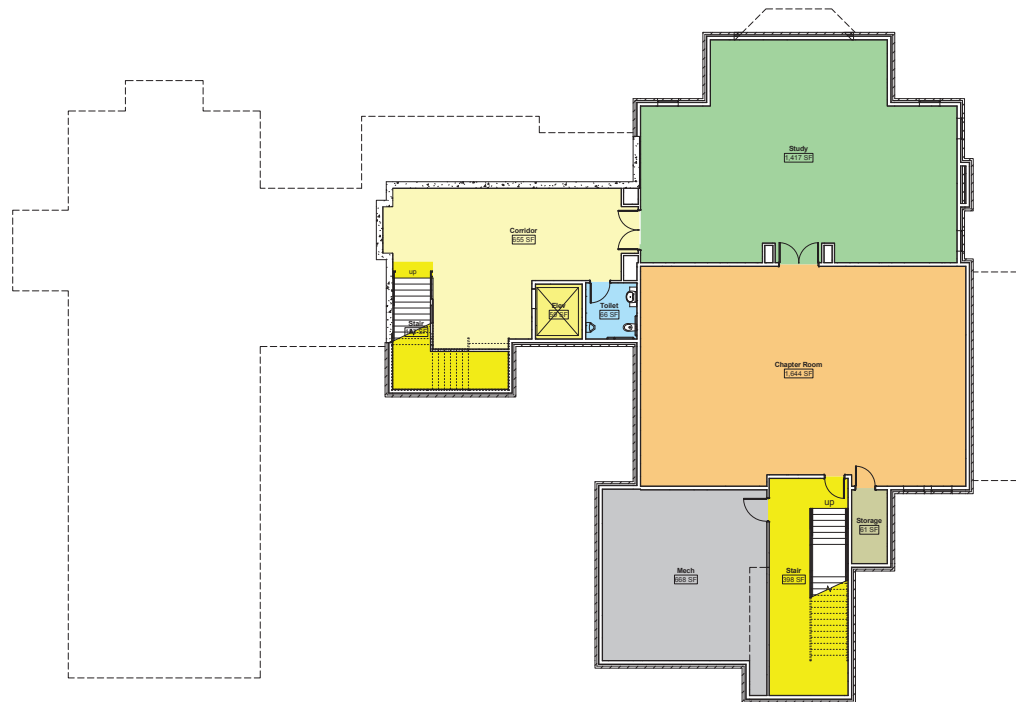

New construction allows us the unique opportunity to align our house with the focal point of the OSU campus - the Edmond Low Library. This site plan also maintains ample parking for our brothers along the south and west portions of the property.
